

**SOLID WASTE AUTHORITY OF PALM
BEACH COUNTY
BIOSOLIDS PELLETIZATION FACILITY**

Needs a Photo

Site:	SWA Property, West Palm Beach, FL.
Project Description:	As one of the thirteen state-funded projects under the Phosphorus Source Control Grant Program, this project provides for the construction of a biosolids treatment facility. Once completed, this facility will process wastewater sludge from various public utilities in the general geographic area and reduce the amount of sludge that is land applied within the Lake Okeechobee watershed.
Performance:	Estimated annual P load reduction from this project is 3.61 M Tons
Funding:	\$1,125,000 (State Appropriation).
Landowner Cost-Share:	75-90% (Land, Permitting, Construction, O & M).
